Acknowledgments

Acknowledgments

The Ocean Climate Observation Program acknowledges the invaluable assistance in the preparation of this report of Diane Stanitski, whose efforts were instrumental in developing the content and presentation of this report, and without whom the document could not possibly have been completed in timely fashion. In addition, Richard Rivera brought the report to life with his design and implementation of the artwork and the user interface. We are grateful to these modest and helpful colleagues for doing the hidden work that was necessary to bring this report to fruition.
